MILESTONE CONSTRUCTION REPAIRS WILL BEGIN JUNE 30 ON BUILDING 32

The permit for Building 32 has been issued and construction is scheduled to begin June 30. It is expected to take about 30 - 45 days.

- **ALL porches of all units must be fully cleared by June 30**
- **Furniture must moved at least 3' away from all windows throughout the unit**
- **Thumblocks must be removed from all windows**
- **Pets should be removed from the unit, crated, or placed away from all construction**
- **If you have allergies – do not stay in your unit while it is being repaired**
- **There will be noise – banging, drilling, hammering, etc. There will be scaffolding which will make noise and beeping as it moves**

Pricing for both the "gotta" replace (mostly awning/jalousy) and the "wanna" replace windows should be available by 6/17/2025 and will be sent via email.

You can pay for your porch to be moved for a reduced rate of $50 which will occur on June 26 starting at 9am. I must have a contract and a check payable to Adios Moving, LLC in hand which you can drop at my door or a contract which agrees to pay cash or Zelle on site. Porches which are not cleared when the contractors are set to enter will be cleared by movers and the full cost charged to the homeowner.
