

MILESTONE ABANDONED FASTENER HOLES / MOVER

The following units in each of the north buildings (33 thru 36 as indicated at the bottom of this email), our engineer found holes, screws, nails or fasteners (or the old holes) in one or more walls of the lanai. Nici will be repairing these over the next couple of months.

OWNERS - IF YOU ARE GOING TO USE THESE FASTENERS HOLES for pictures, plants, or other hanging objects, please mark them immediately by tying a string, rubber band, dental floss, yarn or ribbon around them. All others will be filled with a stucco grout material.

PLEASE mark any fasteners in use before you leave to go north, or they will ALL be filled.

AND, OF COURSE, another reminder that your lanai must be FULLY CLEARED before you go north for the summer, a key or code to your unit given to your building captain, along with an emergency contact and the name of your house sitter, and your car keys left on the dining table (if it is staying) so it can be moved if necessary. Ideally, keep your car away from the front of the building.

MOVER - if you want to use the mover before you leave - get a contract and check for \$50 payable to Adios Movers to your building captain NOW as I will be scheduling in March.

Building 33 - 101,103,105,108,202,203,302,304,305,306,308,310,
402,403, 405,409,410

Building 34 - 102,103,108,109,201,204,205,207,210,307

Building 35 - 101,203,205,303,308,405,409

Building 36 - 209,302,305,309,401,402,404,408
